PROFILE

Aspiring Software Developer with a strong foundation in core programming and web development, currently pursuing skills in Python, C, and C++ alongside front-end technologies such as HTML, CSS, and JavaScript. Familiar with modern tools including React JS and Tailwind CSS, and experienced with version control using Git and GitHub. Has built small independent projects, including a to-do list application and an expense tracker, to practice and strengthen full-stack fundamentals. Eager to learn, take on new challenges, and grow into more advanced software engineering and development roles.

EDUCATION

Jaypee Institute of Information Technology, Noida Sector 128

Btech CSE (AI ML)

Noida, Uttar Pradesh

2026 - 2030

Syed Abid Husain Sr. Sec. School, JMI

Senior Secondary School (11th – 12th)

2023 – 2025

Syed Abid Husain Sr. Sec. School, JMI

Secondary School (11th – 12th)

New Delhi

2018 – 2022

- Performance: Scored 95% in 10th Board Examination (Jamia Board)

SKILLS

- **Languages:** Python, C, C++, HTML, CSS, JavaScript
- **Frameworks/Libraries:** Tailwind CSS, React JS
- **Tools & Technologies:** VS Code, Git, GitHub

PROJECTS (PORTFOLIO)

- **DocGuard** — www.docguard.online

A professional-grade, zero-knowledge document redaction tool that sanitizes sensitive information from PDFs and images entirely within the user's browser — no data ever leaves the client.

- Designed and deployed a fully client-side redaction engine eliminating server-side data exposure risk.
- Supports PDF and image formats with real-time preview and download of redacted documents.
- Implemented zero-knowledge architecture ensuring user data privacy by default.
- Accessible live at www.docguard.online — built using HTML, CSS, JavaScript, and browser-native APIs

- **Unclutter** (*Ongoing Project*)

A powerful web application to clean your Gmail inbox by identifying and unsubscribing from unwanted newsletters and clutter.

- Integrates with Gmail API to scan and categorise incoming mail, detecting newsletters and promotional senders automatically.
- Provides a clean dashboard displaying clutter sources with one-click unsubscribe functionality

- **FinTrack Pro (Expense Tracker):** <https://ghufanfazal.github.io/fintrackpro/>

Developed a personal finance tracking web app using HTML, CSS, and JavaScript to record daily expenses, categorize spending, and help maintain a simple overview of personal finances.

ACHIEVEMENTS & ACTIVITIES

- Achieved 95% in Class X and 90% in Class XII under curriculum of Jamia Board, demonstrating consistent academic excellence.
- Built and launched DocGuard (www.docguard.online), a live privacy-focused web tool used by real users.
- Active participant in school-level football and inter-school competitions, demonstrating teamwork and leadership.
- Pursuing online certifications in SQL and Python to complement formal education.

HOBBIES & INTERESTS

Football (Team Player — Captain of school team) • Guitar (Self-taught, 2+ years) • Film Script Writing • Hiking & Outdoor Exploration
